# Rival Muhammad Sayid

Quality Assurance Engineer - Student at Binar Academy  
Jakarta Raya, Indonesia

## Ringkasan

Hi, I'm Rival Muhammad Sayid! Informatics graduate of 2022 with boundless passion for technology and quality. Currently, I am pursuing an interesting career journey in the professional world.

With a passion for continuous learning and growth, I am currently focusing on my role as a professional in the technology industry. I have a special interest in Quality Assurance (QA) and am currently actively participating in the Quality Assurance bootcamp program at Binar Academy. Through this program, I seek to deepen my understanding of software testing and product quality, as well as hone the technical skills needed to ensure a great user experience.

My experience in technology has given me valuable insight into how technological innovation and excellence can shape the future. Apart from academic experience, I also have practical experience in technology based projects which has equipped me with the ability to adapt quickly in a changing environment.

I enjoy collaborating and interacting with colleagues who share passion in presenting the best solutions. If you are interested in discussing technology, software quality, or other collaboration opportunities, please feel free to contact me.
